

# Schooligio.ai – Compliance Overview

## Trusted, Secure, and Ready for Schools Worldwide

Schooligio.ai is committed to protecting student, parent, and educator data while delivering world-class college and career counseling tools. Our platform is built on secure, audited infrastructure and follows rigorous privacy and security standards.

Standard	Status	Details
FERPA	Compliant	Supports FERPA rights; consent management for student records; school/district data protection.
GDPR	Ready	Data subject rights processes; signed Data Processing Agreements; EU/UK transfer mechanisms.
COPPA	Compliant	Parental consent workflows for under-13 users; no targeted advertising.
SOC 3	Infrastructure Certified	Hosted on AWS/Bubble.io with SOC 3, SOC 2, ISO 27001 certifications.
ISO 27001	Infrastructure Certified	AWS compliance with ISO/IEC 27001:2013.

## Our Security Practices

- Encryption at rest (AES-256) and in transit (TLS 1.2+)
- Role-based access control (RBAC) with MFA for admin accounts
- Regular vulnerability scanning and patching
- Annual compliance audits and vendor reviews
- Detailed incident response and breach notification SOPs
- Data retention and secure deletion processes

## Transparency Commitment

We maintain a public list of subprocessors and vendors, provide open access to our privacy policies, and offer clear guidance to parents, students, and schools on their data rights.
